

7th TAROT Summer School on  
Software Testing, Verification & Validation  
(TAROT 2011)  
Saint Petersburg, Russia  
June 27 - July 01, 2011

### General Information

**TAROT** (Training And Research On Testing) is a network created to foster the mobility of students, faculty members and research scientists working in the field of testing of software and communication systems. Because of its success, this network is continued beyond its original Marie Curie Research Training Network funding.

This summer school brings together lecturers, researchers, students and people from industry for one week of presentations, discussions and an opportunity to get to know each other.

The main goal of the TAROT Summer School is to give researchers, particularly PhD students, the opportunity to follow a number of advanced courses by key experts in the field. The TAROT Summer School is open to researchers working in the area of testing, both from academia and industry.

### Speakers (confirmed)

**César Andrés, Mercedes G. Merayo**, Universidad Complutense de Madrid, Spain

**Igor Burdonov, Alexandre Kossachev**, ISP RAS, Russia

**Gordon Fraser**, Saarland University, Germany

**Roland Groz**, LSR-IMAG, Grenoble Institute of Technology, France
